SAFE CHURCH CONFERENCE

1 DAY THAT WILL CHANGE THE WAY YOU DO MINISTRY!!

The most important step a ministry can take in reducing the risk of child abuse is training staff members and volunteers to understand the problem. Together we can guard our flock, by equipping leaders with tools and knowledge. Join us on November 11th, for this powerful one-day event where you and your staff can learn:

- **Common Sexual Abuse Indicators**
 - **Characteristics Of Abusers**
 - **Grooming Behaviors**
- **Abuse Prevention Best Practices In Ministry Programs**

Abuse often goes unrecognized and unreported within our churches and ministries. This one-day conference will equip you to lead your church to be a safe place for families to come and worship. We hope to see you there.
